Sue Marshall, who has Type 1 diabetes and set up www.desang.net, shares her favourite diabetes kit...

Mendor Discreet

Finnish company Mendor has launched an all-in-one blood glucose monitor, the first product of its kind in Europe and granted clinical approval, having undergone extensive testing. It contains all the necessary components: meter, strips and lancing device to be an integrated, all-in-one blood testing device. They call it 'the MP3 player of blood glucose monitors'.

 www.mendordiscreet.co.uk or find them on Facebook.

Sharpsafe

If you're using lancets, needles and syringes then you'll know that part of the pain is the hassle of having to dispose of these items safely after use. Purpose-designed containers for the safe disposal of clinical sharps are generally known as sharps bins and a good bet for one that will suit your needs can be found in the Sharpsafe range. Prices start from around £2.50.

 Available on Amazon.
